

## Friends of Meaford Library Summer Concerts 2025

### Concert #5 by The Millpond Project on Sunday, 27 July 2025

This year, The Friends of Meaford Library are pleased to bring back The Millpond Project. The band is a collective of generally 4 local part-time musicians (the name is from the millpond in Massie) who have performed regularly throughout Grey and Bruce counties for several years. They have provided music for a variety of events such as soloists for weddings, as duets for easy listening at vineyards, and as classic rock performers for all sorts of celebrations, including several years as a New Years Eve band.

The core band is comprised of Pete Miller (bass, vocals), Lloyd Mohr (rhythm guitar, vocals), and Gerard Willmes (drums, vocals). And more recently (2022), they were joined by Jeff Freeman who performs with them on a regular basis as lead guitar.

Band members come from different musical backgrounds and now generally play classical Rock and Folk Rock music with hints of Pop and Blues thrown in. They like to think of themselves as “entertainers” and love to engage their audiences throughout their shows. Last year they entertained at the harbour pavilion as a duet with guitar and bass and harmonizing vocals. This year, the whole four-piece band is excited to be coming to Meaford and rocking the harbour. They hope everyone who comes out has a wonderful time enjoying LIVE music! And Thank You for supporting Friends of the Meaford Library.
