

Friends of Meaford Library Summer Concerts 2026

Concert # 5 The Mill Pond Project on Sunday 26 July 2026

The Mill Pond Project was formed in 2018 by three local part-time musicians who shared a love for live classic music. They came from slightly different backgrounds (Folk, Rock, Classical) but all shared a passion for providing live, entertaining music to audiences. Together, they bring decades of music performance experience to the Project. musicians.

The core band is comprised of Pete Miller (bass, vocals), Lloyd Mohr (rhythm guitar, vocals), and Gerard Willmes (drums, vocals). More recently (2022), Jeff Freeman has joined the band on a regular basis on lead guitar.

The band performs shows regularly in Grey and Bruce Counties, including Canada Day Celebrations in Annan and other rural celebrations. They have performed in back yards for personal special events like birthdays and anniversaries and at local vineyards for private organization parties. They've played on hay wagons at local Fall Fairs and at formal weddings, providing both ceremonial music and dance music later.

Their repertoire includes classic rock and pop music, folk rock, blues, and even a bit of country. They consider themselves not just musicians but also entertainers. Each Mill Pond Project performance is unique, with various set lists and songs tailored to the clients' needs! Above all, the band enjoys their performances and tries its best to ensure the audience shares in that enjoyment.
